

First Invitation and Call for Papers

**The 11th Biennial Joint Meeting of the CIE-USNC and CNC/CIE:
The U.S. and Canadian National Committees of the
International Commission on Illumination
(Commission Internationale de l'Eclairage)**

October 3-4, 2017

National Institute of Standards & Technology, Gaithersburg, MD, USA

Principal Theme: Light, Color, and Health

Join us at NIST for two days of technical presentations, business meetings and networking opportunities with many of the leading researchers and practitioners in the science and art of light and lighting. All topics within the CIE portfolio will be discussed during these two days — including updates on important CIE activities and plans for the upcoming mid-Session meeting in Jeju, Korea later in October.

The meeting starts with Technical Conference on Oct. 3, followed by a Joint Session on Division reports and business meetings on Oct. 4. There will also be a lab tour of NIST photometry and vision science labs on the afternoon of Oct. 4.

We seek presentation proposals for papers, panel sessions, and posters/demonstrations for the Technical Conference on October 3.

- Send your proposal via e-mail by **Friday, July 30, 2017** to one of the two **Conference Chairs**:

Dr. David Sliney (david.sliney@att.net) or
Dr. Jennifer Veitch (j_a_veitch@jdarchitect.ca).
- Please include a title, author(s), and 150-word abstract. If you wish to put on a demonstration, please also include details of the technical requirements. Authors will receive a decision by August 15, 2017.

Registration and accommodation details for this event will be available soon and posted at the website of both the CNC/CIE (<http://www.cnc-cie.ca/>) and USNC/CIE (<http://www.cie-usnc.org/>).
